## **DETAILED ACTION**

### ***Repeated Rejections***

1. The 35 U.S.C. 103(a) claims 1 – 5, 12 and 14 – 16 over Richter et al. in view of Kato in the office action dated November 3, 2005 is repeated for the reasons previously of record as the arguments presented in the paper dated February 8, 2006 are unpersuasive.
2. The 35 U.S.C. 103(a) claims 6, 7 and 9 – 11 over Richter et al. in view of Kato and Alberg et al. in the office action dated November 3, 2005 is repeated for the reasons previously of record as the arguments presented in the paper dated February 8, 2006 are unpersuasive.
3. The 35 U.S.C. 103(a) claim 8 over Richter et al. in view of Kato and Pape et al. in the office action dated November 3, 2005 is repeated for the reasons previously of record as the arguments presented in the paper dated February 8, 2006 are unpersuasive.
4. The 35 U.S.C. 103(a) claim 13 over Richter et al. in view of Kato and Borgers et al. in the office action dated November 3, 2005 is repeated for the reasons previously of record as the arguments presented in the paper dated February 8, 2006 are unpersuasive.

### ***Response to Arguments***

5. Applicant's arguments filed February 8, 2006 have been fully considered but they are not persuasive.

Art Unit: 1.772

In response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., the release tape does not remain adhered to the inner surface of the diaper upon unfolding of the closure tab) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). The claims are directed towards a composite tape and do not mention the diaper.

In response to the Applicant's argument that neither Richter nor Kato teach a composite release tape wherein the tape entirely covers the mechanical fastener of the release tape, Kato clearly teaches a backing layer of the release tape entirely covering the mechanical fastener material of the fastening tape (Figure 6, #30) as part of a composite in a roll form (Figure 7) for the purpose of forming a disposable absorbent article that has release tapes in the closed position in order to facilitate packing of the articles (Abstract).

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
